WHOLESALE TRADE PRICES FOR 1902

True Blue Seeds

New Cumberland Cucumber.

A splendid new sort first introduced this Spring.
See illustration and Description in Seed Annual. Price \$1.30 per pound.

The Livingston Seed Co.

114 North High Street.

COLUMBUS, OHIO.

To Dealers

COLUMBUS, OHIO, February, 1902.

The quotations in this Trade List are intended for **Dealers Only**. We expect to bill at prices given as far as possible, but should any of our stocks run short we reserve the right to decline orders or advance price.

We do not put out Vegetable Seeds on Commission.

Transportation At the prices quoted, customers must pay cost of forwarding. When desired we will send by mail, but when this is done postage will be added to the invoice at the rate of eight cents per pound. Quarter pounds will be supplied at pound rates; quarter bushels at bushel rates.

Cartage, Etc. We make no charge for cartage, boxes, barrels or packing. Bags only are charged for, and at cost, which is from 13 to 15 cts. each.

Terms All general bills of Garden Seeds are payable June 1, 1902, without reference to date of purchase; or a discount of one per cent. a month will be allowed on all payments made before June 1. Bills to parties buying **special items only**, are due in 60 days. Onion Sets, Potatoes, etc., are net cash. Unknown correspondents desiring credit must give satisfactory reference.

Seeds in Packets, Etc. Which cannot be billed at the low bulk prices given in this Bulk Wholesale List, will be invoiced at following discounts from prices in our Retail Catalogue:

All Seeds in Packets, except those herein quoted, at 50 per cent. discount. 500 packets or more at 60 per cent. discount.

Seeds by the ounce, pint or quart, $33\frac{1}{3}$ per cent. discount.

Potatoes by the pound, or Potato Eyes, 40 per cent. discount

Plants in collections, 10 per cent discount.

Books on Garden Topics, 20 per cent. discount.

At these liberal rates of discount the goods must travel at the purchaser's expense, and if by mail, postage will be added to the invoice.

Special Notice.

We do not supply "cheap seeds," and therefore do not try to compete in price with those who handle them. We furnish the Trade exactly the same quality of seeds that we send to our best Market Gardeners. They are grown either by ourselves or subject to our inspection; hence we feel no hesitancy in saying that they are the purest and best to be found. At the same time, however, it must be distinctly understood, since the success of a crop is dependent upon so many contingencies, as condition of soil, mode of planting, climate, etc., that we cannot warrant our Seeds or hold ourselves responsible for any loss or damage arising from any failure thereof.

TRADE PRICE LIST

PLEASE USE OUR "CIPHER" WORDS IN TELEGRAMS.

OUR customers will find a **Telegraphic Code word** printed opposite each article, enabling them to order by wire at comparatively little expense. For example: "**Five Baneful**" would mean **five bushels Extra Early Round Pod Valentine Beans**; "**Twenty Target**" would mean **twenty pounds Livingston's Beauty Tomato**. The additional word, "**Freight,**" "**Express,**" "**Mail,**" would designate the mode of shipment.

LIVINGSTON'S CELEBRATED TOMATO SEEDS

FOR MERCHANTS
IN SEALED PACKAGES ONLY

For the protection of the honest merchant and the grower who desires only true stock of our Tomatoes, we have for several years followed the plan of supplying **Our Celebrated Varieties of Tomato Seeds in Sealed packages Only**; and hence every package of the Livingston varieties of Tomatoes grown at headquarters will be sent under our **TRUE BLUE SEAL**.

In 1870 we originated and introduced our **Paragon**, which was the first perfectly smooth red variety known. Five years later we introduced the **Acme**, the first perfectly smooth purple sort known. Since the advent of these sorts we have brought out consecutively the **Perfection**, **Golden Queen**, **Favorite**, **Beauty**, **Potato Leaf**, **Stone**, **Royal Red**, **Aristocrat**, **Buckeye State**, **Honor Bright**, **Yellow Prince** and **Magnus**. As originators and introducers of these sorts, we use the most assiduous care in growing the Seeds, and although these same varieties are extensively advertised by other dealers, yet we do not hesitate to claim superiority for our **Headquarters' Strains**.

SPECIAL NOTICE

We annually supply hundreds of merchants in all parts of the United States with our Tomato Seeds put up in packages for retailing. It is a highly satisfactory and successful method, because it affords a dealer's patrons positive evidence that he is selling the genuine article.

We put up the Seed in **OUNCES**, **QUARTER-POUNDS** and **POUNDS**, and each package bears our **TRUE BLUE SEAL**.

Packets for retailing at 5 and 10 cents are supplied to dealers at half price.

To those who have never handled our Seeds we respectfully suggest the propriety of trying this plan.

Genuine Livingston's

* Beauty Tomato

THIS is by all odds the most popular tomato in cultivation today among market gardeners. It is used in all sections—north, south, east, west—with un-failing success. One would think that even such an old standby must suffer on account of the numerous introductions of new varieties, but on the contrary the **genuine old Livingston Beauty** is constantly growing in popularity—holding all its old friends and daily making new ones. There are about a dozen so-called new varieties on the market which are simply a poor strain of our time-honored Beauty. Dealers should buy their supply from us in order to be sure to get the genuine. We put it up in packets, ounces, quarter pounds and pounds at no extra expense to dealers and when handled in this way the merchant relieves himself from all responsibility and all chance of error by his clerks. Every package bears our **True Blue Seal**.

Price, see page 13.

GENUINE LIVINGSTON'S STONE TOMATO

THIS great tomato, introduced by us only a few years since has headed the list of main crop red sorts from the beginning. As in the case of the Beauty (referred to above) dozens of imitations have been foisted upon the public and not a single advantage brought about by any of them. We have the **GENUINE ORIGINAL Livingston's Stone** and it is not equalled for main crop. It is of large size, perfectly smooth, and best table quality. The heaviest cropper known, being used almost exclusively by the largest growers everywhere. It is perfectly solid, very meaty and has less seeds than any other variety of equal smoothness in cultivation. The Stone is still growing in favor year by year. Get our genuine seed in sealed packages and be safe. Your trade will grow and be permanent.

Price, see page 13.

KENTUCKY BLUE GRASS. Many prefer plain Blue Grass to a mixture, and it cannot be denied that it produces a beautiful and lasting lawn, but it takes longer to establish it. Fancy clean seed—pound, 10c., subject to market changes.

<p>DEALERS In Hardware, Groceries, Drugs, etc., will find Lawn Grass Seed a very neat and profitable article to handle</p>
